

SAFETY FUEL TANKS

Made in Italy

Anti-Explosion Fuel Tanks

خزانات وقود مع حماية ضد الانفجار

Military

Anti-Explosion Treatment obtained by filling the fuel tank with polyurethane foam (MIL-DTL-83054C) or aluminum spheres, known by the name EXCO or DETO-STOP. Filling with the explosion suppressant material does not alter or affect the draught of the fuel.

Marine

For more than 20 years, we have been manufacturing explosion-suppressant, self-sealing and flame retardant fuel tanks using proprietary technologies developed for specific use in the Automotive, Marine and Aviation industries. Among the years, we have proudly provided ballistic fuel tanks for Presidential Limousines, Head of States, Popes, Magistrates, and Security Forces vehicles. Moreover, our fuel tanks have been used as safety equipment on bank's Armored cars, Military Off-Road Vehicles, boats and aircrafts too.

Range of Available Treatments:

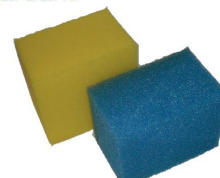

- ✓ Anti - Explosion
- ✓ Anti - Grenade Protection
- ✓ Self - Sealing
- ✓ Flame Retardant

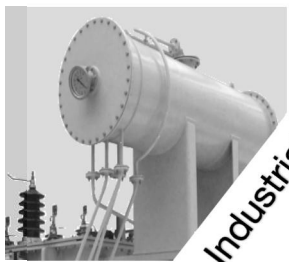

Aviation

ALUMINIUM MESH SPHERES

EXPLOSION SUPPRESSANT FOAM

Industrial

M.E.R.I.N fuel tanks have passed all the tests set by the International Automobile Federation. In fact, our company has received all FIA homologations for standards FT3, FT3.5 and FT5-1999. M.E.R.I.N is an ISO 9001 and UNI/EN 9100 certified company for the aerospace and defence industries.

Please contact for more detailed specifications on various treatments.
